

From the Planners' Bookshelf...

Parks and Recreation System Planning, A New Approach for Creating Sustainable, Resilient Communities.

David L. Barth, PhD, Island Press, Washington D.C., 2020.

FROM CharacterTowns.org...

David Barth [1955-2022] has provided the city-building professions with a holistic guide for developing a great parks systems while using it to develop a great city. The power of the parks and recreation system to address the full range of social issues is presented in terms of tactics and aspirations. A great and useful read.

FROM ISLAND PRESS...

"Parks and recreation systems have evolved in remarkable ways over the past two decades. No longer just playgrounds and ballfields, parks and open spaces have become recognized as essential green infrastructure with the potential to contribute to community resiliency and sustainability. To capitalize on this potential, the parks and recreation system planning process must evolve as well. In *Parks and Recreation System Planning*, David Barth provides a new, step-by-step approach to creating parks systems that generate greater economic, social, and environmental benefits."

"Barth first advocates that parks and recreation systems should no longer be regarded as isolated facilities, but as elements of an integrated public realm. Each space should be designed to generate multiple community benefits. Next, he presents a new approach for parks and recreation planning that is integrated into community-wide issues."

"Chapters outline each step—evaluating existing systems, implementing a carefully crafted plan, and more—necessary for creating a successful, adaptable system."

"Throughout the book, he describes initiatives that are creating more resilient, sustainable, and engaging parks and recreation facilities, drawing from his experience consulting in more than 100 communities across the U.S."

"*Parks and Recreation System Planning* meets the critical need to provide an up-to-date, comprehensive approach for planning parks and recreation systems across the country. This is essential reading for every parks and recreation professional, design professional, and public official who wants their community to thrive."
